Description

The Montana Department of Public Health and Human Services (DPHHS) in releasing this RFP to procure an Electronic Visit Verification (EVV) Services Contractor to support Montana’s Medicaid modernization effort, referred to as Montana’s Program for Automating and Transforming Healthcare (MPATH). The Electronic Visit Verification (EVV) Services is a component of the Care Management module which is a part of the overall MPATH program to replace aging legacy components of the Montana Healthcare Programs enterprise.

The intent for this RFP is for DPHHS to obtain a discrete module that aligns with the Final Rule for Mechanized Claims Processing and Information Retrieval Systems as described in [42 CFR 433.111](#). This module will support specific business objectives within the Montana Healthcare Programs enterprise that are detailed in Sections 3.9 High Level Scope of Work and 3.10 Detailed Scope of Work in this RFP, and will be required to have interoperability with other MPATH modules. Consistent with recent definitions in the Final Rule for Mechanized Claims Processing and Information Retrieval Systems, DPHHS defines a module as a group of business processes that can be implemented through software, data and interoperable interfaces that are enabled through design principles in which functions of a complex system are partitioned into discrete, scalable, reusable components.

Each procured module must meet all the automation and interfacing requirements included in this RFP. In addition, DPHHS expects Offerors to present solutions that can be easily configured to achieve the outcomes described in this RFP and that will be flexible and adaptable enough to support Montana Healthcare Programs well into the future.

Regulations at 42 CFR § 433.112(c)(2) provide that COTS-related development costs at the enhanced match rate may only include the initial licensing fee and the minimum necessary to install, configure, and customize the COTS software and ensure that other state systems coordinate with the COTS software solution. When responding to a request for the 90 percent FFP rate for a COTS product, CMS will consider whether the configuration and customization of the product would be kept to minimal levels to achieve full functionality in the most cost- effective manner.

A condition for enhanced funding of COTS software is that customization of the product is minimal. Examples of minimal customization include modification of database interactions to include additional required data elements, processing of state specific but necessary business rules, and modification of interfaces to allow interoperability with existing components or modules. If a COTS product is heavily customized, then the solution may become so unique to that state that other states are unable to reuse it, or that newer releases of that software cannot be easily integrated into the state’s system, resulting in a solution that no longer meets the Standards and Conditions criteria outlined in the most current version of MECT.

Prerequisites

 Required to View Event

 Required to Enter Bid

- ★ 1. Please review and accept the information regarding Section 1 - Introductions and Instructions.
- ★ 2. Please review and accept the information regarding Section 2 - RFP STANDARD INFORMATION.
- ★ 3. Please review and accept the Vendor Resources Handbook - Responding to Events in eMACS. Additional resources are available at: <http://vendorresources.mt.gov/>
- ★ 4. Please review and accept the Single Point of Contact information.
- ★ 5. Please review and accept the RFP Schedule of Events.
- ★ 6. Please review and accept the pre-proposal conference information.
- ★ 7. Please review and accept the Presentation/Demonstration/Interview requirements as described in Section 4.2.5 for this RFP.
- ★ 8. Offeror has reviewed and understands March 5, 2018, is the deadline for submission of Contract Exceptions. Offerors shall follow the instructions listed in Section 1.5.1 for submitting Contract Exceptions. No Contract Exceptions submitted after March 5, 2018, shall be considered.
- ★ 9. Please review all question and answer entries for this solicitation by clicking on the Q&A Board and viewing each question and answer.
- ★ 10. Please review and accept the contract as provided. Bidders/Offerors requesting additions or exceptions to the contract terms must submit them to the procurement officer listed above by the Q&A deadline. The State reserves the right to address nonmaterial requests for exceptions to the standard terms and conditions and contract language with the lowest bidder/highest scoring offeror during contract negotiation.
- ★ 11. Please review and accept the information in SECTION 6 - EVALUATION PROCESS
- ★ 12. Offeror has reviewed Attachment L - Technology Matrix and understands all costs from Attachment L have been included in their response to Attachment G - Pricing Schedules.
