

Aeration System Modifications (Electrical Services)

Town of Narragansett Scarborough Wastewater Treatment Facilities (WWTF)

General Scope of Work

This project shall include all labor, materials, and equipment (except as specifically noted herein) necessary to install the owner-purchased variable frequency drives, control panels and HVAC equipment necessary to support the upgrades to the aeration system. More specifically, the work shall include all conduit, wiring, connections, switches and related appurtenances.

The Contractor must develop a phasing plan consistent with the requirements of this project and which must be approved by the Town prior to any implementation.

Refer to Section 01010 – SUMMARY OF WORK of the Bid Documents for additional information as to the project scope.
