

# ASBESTOS CONTAINING MATERIALS NOTIFICATION STATEMENT FOR CONTRACTORS DIVISION 0 \* SECTION 00669

---

**PURCHASING DEPARTMENT • 3630 STATE STREET • SALEM, OREGON 97301-5399 • (503) 399-3086**

---

During the execution of this contract it is possible that asbestos containing materials could be encountered while working in and around district buildings and property. A district ASBESTOS CONTAINING MATERIALS NOTIFICATION STATEMENT FOR CONTRACTORS form must be completed and signed by the Contractor prior to beginning work in any Salem-Keizer Public School District buildings.

This form must be completed and signed by the Contractor and Salem-Keizer Public Schools (SKPS) prior to beginning work in any SKPS building.

Throughout all SKPS buildings, materials known or assumed to contain asbestos are regulated by OSHA. Materials known or assumed to contain >1% asbestos are further regulated by AHERA (Asbestos Hazard Emergency Response Act) and defined as an "asbestos-containing material."

The presence of materials known or assumed to contain asbestos is documented in the AHERA Management Plan for each building. Copies of the AHERA Management Plan are available in the main office of each building and in SKPS's Facilities office at 3630 State Street, Salem Oregon 97301.

SKPS's AHERA Designated Person or AHERA Program Coordinator must be informed of the Contractor's planned activities in any building prior to the start of work. SKPS must inform the Contractor how to use the AHERA Management Plan and determine if any materials known or assumed to contain asbestos may be disturbed by the Contractor's work.

The Contractor is responsible for notifying their employees and subcontractors of the presence of asbestos in the building. If the Contractor discovers material suspected to contain asbestos which has not been identified, they must stop work and immediately notify SKPS's AHERA Designated Person or assigned representative so the material can be properly addressed. If the Contractor disturbs material that contains asbestos and is outside the contracted scope of work, they will be responsible for the cost of the regulated decontamination and disposal. Any asbestos-containing material that must be disturbed or removed to allow the Contractor to complete contracted work will be addressed under separate contract by the District.

I \_\_\_\_\_ representing \_\_\_\_\_  
(Print Name of Representative) (Business Name)

have been notified of the location of the AHERA Management Plan, and agree to avoid disturbing all materials known or assumed to contain asbestos that are outside the contracted scope of work.
