

RFP 672 D1 Lowboy Trailer

ADDENDUM 2

Please clarify the following item: 30. Self-aligning fifth wheel plate

Are you looking for a standard king pin and upper coupler plate on this or do you need an inverted fifth wheel plate on the trailer gooseneck?

The design of where the gooseneck connects to the trail deck itself should be of the self-ailing inverted fifth wheel type, the tractor connection will be standard. Other designs will be considered and anything other than this will be considered an exception. Exceptions should be listed on the company information page.
