Published Questions

Question	Could you specify type of underlayment that is acceptable. Organic (15lb or 30lb) or synthetic?
Answer	The underlayment is specified in Section 0073100, 2.02.A. Any product that a contractor wants to submit as an approved equal will need to be equivalent or great than the product specified. Alternative "equal" products should be submitted before the cut-off time for questions.
