

Scope of Work

Grass cutting and trimming at the Marion Regional Office

1. Grass shall be cut once per week and as defined in sections 4 and 5 below.
2. Grass in defined areas not accessible by mower will be cut by string trimmer.
3. All grass clippings will be cleared from sidewalks, steps and ramps after each cutting.
4. Areas to be mowed outside of the compound fence are defined as all grass covered areas between Route 16 and the compound fence, bounded by the farm access road on the east and the entrance to the compound on the west. These areas are to be mowed every week as needed.
5. Areas to be mowed inside the compound are defined as all grass covered areas inside the fence, around the generator and heat pumps and including the slopes on either side of the drainage ditch. These areas are to be mowed every other week as needed.
6. Should drought conditions restrict the growth of grass, contractor may be asked to mow less frequently than once per week.
7. DGIF may request mowing and trimming to be completed by a certain date prior to scheduled special events or meetings.
8. Any questions should be directed to Tom Hampton at (276)-782-9973.
