

**MONTGOMERY COLLEGE - OFFICE OF PROCUREMENT  
HAZARDOUS MATERIAL ANALYSIS AND DISPOSAL SERVICES  
RFP NO.: E420-010  
RFP CLOSING DATE AND TIME: JUNE 26, 2020 @ 3:00 PM**

**ADDENDUM #1  
Issued: June 12, 2020**

---

**ADDENDUM IS BEING ISSUED FOR PROVIDING ANSWERS TO THE FOLLOWING QUESTIONS:**

- 1-1      Question:      Who is the current contractor?
- Answer:          The current contractor is ECOFLO, Inc.
- 1-2      Question:      Are there any Small Business or MBE Goals for this procurement?
- Answer:          Small businesses and MBEs are encouraged to respond to the RFP.
- 1-3      Question:      We request a copy of the current contract pricing and bid tabulation, if available.
- Answer:          Attached is a copy of the bid tabulation. As the current Contract (RFP/Contract #416-001) is procured by, Request for Proposal process, the Contractor's pricing is subject to Maryland Public Information Act and is not available.
- 1-4      Question:      Are Sections 5.1, 5.2 and Section 5.3 on pages 21-24 just an exercise for bidders to complete? I ask because I see a place to put other pricing on pages 47-50.
- Answer:          Item 5.1 of Price Proposal form provides the cost components to calculate the pricing for preparation of sample manifest required in Item 5.2 & Item 5.3. The aggregate pricing of 5.2 & 5.3 will be used for pricing evaluation only. Unit pricing (disposal unit pricing) in Item 5.6 shall include all the costs associated, and will be used for contract pricing.
- 1-5      Question:      On pages 47-50, I don't see a place to bid rates for transportation, labor and supplies. Must we incorporate all these into our disposal rate? I'm trying to understand which rates will be the contracted rates.
- Answer:          Contracted Rates will be the ones in Section 5.6. Use Miscellaneous cost calculation from Section 5.1 to account for materials, labor, transportation etc. Total Unit Price must be all-inclusive.
- 1-6      Question:      Do you have a report of actual quantities of each waste shipped and container sizes for each from 2019 that you can share?
- Answer:          Attached is a list of materials shipped on hazardous waste manifests in 2019. The manifest indicates total weight, but not volume per container.

**All other specifications, terms and conditions remain unchanged.**
