(Signature) (Title)

"The Total Bid Price will be utilized for determining the amount of bid, to establish a contract award value, and to determine the performance and payment bond amounts for the successful Bidder. Each Bidder must submit a bid bond for all bids of \$100,000 or more. Payment will be made on actual units used and verified in the field. Correct pricing is extremely important and price should be double checked before submitting a bid. In the case of errors in the extension of prices, the unit price shall govern." Any bidder who enters \$0 as a unit price or leaves the unit price blank shall be considered a nonresponsive bidder.
