Description

Scope of Services The City is seeking non-profit organizations that serve the youth and emerging adults to provide youth leadership services with a focus on youth most impacted by COVID-19. Specifically, the City seeks proposals that focus on one of the following two areas:

- 1) Peer navigation to increase COVID-19 awareness and education, testing and linkage to supportive services to improve the social, emotional and physical health of youth; or,
- 2) Increase social connectedness and spaces (either physical or online) such as mentoring programs among other models.

The overarching objective is to ensure that youth in Long Beach, who have been particularly impacted by COVID-19, have opportunities to get connected to the supports and resources needed to maintain their health and wellbeing during COVID-19. Due to the rising impact of COVID-19 among communities of color, consideration is placed on serving youth and emerging adults, aged 10-24, in high priority populations.

Please refer to the attached document for detailed specifications.
