## Tool Box Talks

2011

### Active Work Zone

A hazard assessment has shown the need for proper personal protective equipment (PPE) and apparel for all employees while in an active work zone and/or while performing certain job tasks. All personnel while in an active work zone shall wear PPE.

#### An active work zone is defined as:

1. The traveled portion of the public right of way including municipal yards.

**Or**

2. The work site, defined as: within fifty (50) feet or a reasonable distance from construction, maintenance, or production activities being performed using equipment or tools or where physical hazards could exist.

**Or**

3. Where there is a reasonable chance of injury due to hazards as defined by OSHA.
