1.	Q.	Will UNCG accept an equivalent to the requested equipment, or does it need to be the Tennant Model?
	A.	As referenced in Section 1.0 , this Request for Quote is Brand Specific. The UNCG Facilities Services Department has indicated that they would prefer to procure a Tennant brand floor scrubber. The department currently has a fleet with a majority of Tennant equipment and would prefer to purchase this brand to make maintenance services more efficient.
2.	Q.	What is the battery Amp Hour rating required and is it to be a lead acid flooded battery or a maintenance free battery?
	A.	The Facilities Services Department has indicated that they would prefer to purchase this equipment with a maintenance free battery. Because this RFQ is Brand Specific for the requested Tennant T7 model, the Amp Hour rating should be 180 @ 20 hr. rate for the Standard Gel Battery, or 220 @ 20 hr. rate for the Heavy-Duty Gel Battery.
3.	Q.	Both 26" and 32" cleaning paths are listed in Section 5.0 General Specifications. Which is required?
	A.	The Facilities Services Department has indicated that they would prefer to purchase this equipment with a 26" cleaning path, to remain consistent with other pieces of UNCG-owned equipment.
