ADDENDUM 5
For
291-1993-20 OSCI HVAC UPGRADE

Below you will find Revisions, clarifications, deletions and/or additions to the bid specifications. This addendum modifies the related Invitation to Bid only to the extent specifically indicated herein. All other areas not specifically mentioned or affected by this addendum shall remain in full force and effect.

This addendum shall be added to and become part of the original Invitation to Bid.

1. Revision; **Delete Pricing Submittal form in its entirety and replace with “Attached Pricing Submittal form”. Add Alternate 1 – Replace all existing steam control valve bodies identified on the drawings with new valves per the specification.**
2. Revision; **Delete Method of Award in it’s entirety and replace with “METHOD OF AWARD: Award will be made to the responsive and responsible Bidder submitting the lowest total for the BASE BID and ALTERNATES selected for award. The State reserves the right to award any or all ALTERNATES listed, and to reject all Bids.”**
3. Clarification; Question; After reviewing the specification for the valves it is our recommendation due to the level of risk that the specification be changed to replace the entire valve body of each valve and not have an option to only replace the tops. There is a high-risk potential that the valves if not replaced will not function properly after retrofits have been completed. By changing the specification to include complete replacement anyone awarded this project can warranty the entire valve giving OSCI more mileage on the money spent.
Answer; ODOC has added Alternate 1.

This addendum represents a material change to the ITB and is required to be signed and returned by the Bid Closing Date and Time. Failure to do so may result in bid rejection.
