ATTACHMENT A

Questions for CRFQ: EBA2100000010

Question

1. Had a question on if the transmission will be sent via The Switch or LTN, or if there is another way the transmission will be sent to the Uplink provider?

Answer

1. The signal is originated at our location. We have a C-Band vertical polarized uplink we use to feed the signal to all the affiliates using a provider of transponder time. It is this provider of transponder time which we are soliciting through this RFQ.

Currently we use transponder 7 slot A on Galaxy 16. We must have Satellite time on Galaxy 16 as we have a non-steerable dish. The uplink polarity must also be vertical.
