No signs may be displayed on or about the Board's property (except those which may be required by law) without the Board's specific approval of size, content and location. Any signs required by the Board will be designated in the scope of work.

GENERAL CONDITIONS

21. TIME:

It shall be understood that time is of the essence of the Contract, and the Contractor must prosecute the work diligently and regularly at such a rate of progress as to ensure completion of this Project within, or sooner than, the time specified. The Contractor shall commence the work on the date indicated in the Notice to Proceed, and he agrees to complete all work described by the Contract Documents within, or sooner than, the number of calendar days required in the Contract.

The Contractors and Subcontractors shall investigate and become aware of the amount of time required for the delivery of all equipment and materials required to perform the work under this Contract, and no extension of time shall be granted due to failure to order said equipment and materials sufficiently before their incorporation into the work so as to avoid delay to the Project.

The Contractors and Subcontractors shall provide and maintain enough manpower, materials and equipment to ensure a rate of construction progress that will complete the Project within or sooner than the time specified and according to the schedule of work. If, in the Architect and/or Project Manager's opinion, the Contractor and/or his Subcontractors are not prosecuting the work at a sufficient rate of progress to meet the Project schedule, the Board may direct the Contractor to provide additional manpower, materials or equipment, or to work additional hours, holidays or weekends without additional cost to the Board until the work is progressing in a manner satisfactory to the Board. Failure to prosecute the work in a timely manner and according to the Project schedule is considered a breach of Contract and is cause for termination of the Contract according to the Article on "BOARD'S RIGHT TO TERMINATE CONTRACT."

22. CONSTRUCTION/PROJECT SCHEDULE:

Within fifteen (15) calendar days after the Award of Contract, the Contractor shall prepare and submit to the Architect (Engineer) and/or Project Manager, for approval, a construction schedule showing in detail how the Contractor plans to prosecute the work. The schedule shall include the work of all trades necessary for construction of the Project, material delivery dates and shall be sufficiently complete and comprehensive to enable progress to be monitored on a day-by-day basis. The information for each activity shall include as a minimum the activity description, duration, start date and completion date.

The Contractor shall take care in the preparation of the schedule to ensure that it represents an accurate and efficient plan for accomplishing the work. If the Project is more than one week ahead of or behind schedule, it must be revised showing how the Contractor plans to complete the work, but in no case shall it show a completion date later than that required by the Contract, unless time extensions have been granted. The current schedule shall be kept posted in the Contractor's project office on site.

The Contractor shall be responsible for the coordination of all work necessary and pertaining to the construction whether actually a part of this Contract or attendant thereto. The Contractor shall notify the Owner and various utility companies, as far as possible in advance of their required work, in order that work schedules may be developed for all concerned, which will permit the most effective accomplishment of the entire project.

23. DELAYS AND TIME EXTENSIONS:

The Contractor may be granted a time extension if he encounters an unavoidable delay of the work due to causes completely beyond his control and which he could not have avoided by the exercise of more care, prudence, foresight and diligence. Causes for which a claim for extension of time may be made are: acts of the public enemy, acts of another Contractor in the performance of another contract with the Board, fire, flood, violent wind storm, epidemic, quarantine restriction, strike, freight embargo, or weather of an unusually severe nature. The

GENERAL CONDITIONS

Contractor will not be granted time extensions for weather conditions which are normal for the location of the Project, according to the U. S. Weather Bureau Records.

A request for extension of time shall be made in writing to the Architect and/or Project Manager and Board within ten (10) calendar days of the date the delay is encountered and shall include a detailed description of the reasons for the delay and corrective measures by the Contractor. In order for the Architect and/or Project Manager to consider a request for time extension, the Contractor must prove that the reasons stated for a delay actually caused a delay in portions of the work which will result in completion beyond the date specified in the Contract. The Contractor may be granted a time extension for a significant change in the scope of work which request for extension of time shall be included in a Contract Modifications Proposal.

No damages or compensation or any kind shall be paid to a Contractor because of delays in the progress of work, whether such delays be avoidable or unavoidable that are not the responsibility of Board. Board's liability to Contractor for delays for which Board is responsible shall be limited to an extension of time for delays unless such delays were unreasonable under the circumstances involved and were not within the contemplation of the parties when the contract was awarded. The Architect and/or Project Manager shall determine the actual costs to Contractor for which the Contractor may claim damages from Board. Such costs, if any, shall be directly related to the project, and shall not include costs that would be borne by the Contractor in the regular course of business, including, but not limited to, office overhead and ongoing insurance costs. The Board shall not be liable for any damages which the Contractor could have avoided by any reasonable means including, but not limited to, the judicious handling of forces, equipment or plant.

The granting of an extension of time because of unavoidable delays shall in no way operate as a waiver on the part of the Board of the right to collect liquidated damages for other delays or of the right to collect other damages or of any other rights to which the Board is entitled.

24. LIQUIDATED DAMAGES: When applicable the Daily Rate will be stated in the Section 00110 – Supplementary Conditions.

Should the Contractor fail to complete this Contract within the time fixed for completion, together with extensions granted by the Board for unavoidable delays, he shall become liable to the Board in the amount specified in the Contract per calendar day for each day said Contract remains uncompleted beyond the time for completion, as and for liquidated damages and not as a penalty. Contractor shall not be charged with liquidated damages when the delay in completion of the work beyond this time for completion is due to acts of the Board. It is expressly stipulated and agreed by Contractor and Board that it would be impractical and extremely difficult to fix the actual amount of damages.

Any money due or to become due the Contractor may be retained to cover said liquidated damages. Should such money not be sufficient to cover said liquidated damages, the Board shall have the right to recover the balance from the Contractor or his sureties, who will pay said balance forthwith.

Should the Board authorize suspension of the work for any cause; the time work is suspended will be added to the time for completion. Suspension of the work by the Board shall not be a waiver of the right to claim liquidated damages as set forth in this section.

25. BOARD'S RIGHT TO TERMINATE THE CONTRACT:

If the Contractor refuses to or fails to furnish sufficient materials, work force, equipment, plant and appurtenances to properly prosecute the work in a timely manner, or if he refuses or fails to comply with any provisions of the Contract Documents, or if he should file a bankruptcy petition or make a general assignment for the benefit of his creditors or if a receiver should be appointed on account of his insolvency, then the Board may give the Contractor and his

GENERAL CONDITIONS

surety written notice of intention to terminate the Contract. Unless within seven (7) calendar days after the serving of such notice upon the Contractor and his surety such violation shall cease and satisfactory arrangements for correction of such conditions be made, the Contract shall cease and terminate. In the event of such termination, the Board shall immediately serve written notice thereof upon the Contractor and his surety.

The surety shall have the right to take over and perform the Contract; provided, however, that if the surety does not commence performance within seven (7) calendar days from the date of sending such notice of termination, the Board may take over the work and prosecute the same to completion by letting another Contract, or by any other method that the Board deems advisable. The Contractor and his surety shall be liable for any excess cost occasioned the Board thereby, and in any such event the Board may take possession of such materials, equipment, plant and other property belonging to the Contractor as may be on the site and utilize same in completing the work.

26. COORDINATION WITH OTHER CONTRACTS:

The Board reserves the right to do other work or award other contracts in connection with this Project. If this is the case, the Contractor shall schedule and coordinate his work in such a manner as not to interfere with the work of others. If conflict arises as a result of other work on this project, the Contractor shall promptly notify the Architect (Engineer) and/or Project Manager. The Board will issue such instructions as are necessary to correct the matter. The Board shall not be liable for the failure of another Contractor to comply with such instructions.

If any part of this Contractor's work depends upon the work of a separate Contractor, this Contractor shall inspect such other work and promptly report in writing to the Architect (Engineer) and/or Project Manager any defects in such other work that render it unsuitable to receive the work of this Contractor. Failure of this Contractor to so inspect and report shall constitute an acceptance of the other Contractor's work, except as to defects which may develop in other Contractor's work after execution of this Contractor's work.

If, through acts of negligence on the part of this Contractor, any other contractor or subcontractor shall suffer loss or damage to the work this Contractor shall make a reasonable effort to settle with such other contractor and subcontractor by agreement or arbitration. If such other contractor or subcontractor shall assert any claim against the Board, Architect (Engineer) or Project Manager, on account of any damage alleged to have been so sustained, the Board or Architect and/or Project Manager shall notify this Contractor, who shall defend such proceedings at his own expense and save harmless the Board and the Architect and/or Project Manager from any such claim.

27. SUBMITTALS (SHOP DRAWINGS, CUTS AND SAMPLES):

Five (5) copies – four (4) paper and (1) PDF file format -of shop drawings, brochures and catalog cuts and samples in quantities specified by Architect (Engineer) and/or Project Manager shall be submitted to the Architect (Engineer) and/or Project Manager for all items for which they are required by the Technical Specifications. Prior to transmitting, the Contractor shall examine all submittals for accuracy and completeness in order to verify their suitability for the work and compliance with the Contract Documents and shall sign and date each submittal.

Submittals shall be made sufficiently before the items are required for the work so as to cause no delay and shall be in accordance with the project construction schedule.

In addition to information furnished as common practice, submittals shall contain the Project name and location, Contractor's name and address, Subcontractor's or supplier's name and address, date of submittal and any revisions, and reference to appropriate specification section, and/or drawing and detail numbers. The Contractor and/or his Subcontractors shall

GENERAL CONDITIONS

verify in the field all dimensions and relationships to adjacent work necessary to ensure the proper fitment of the items submitted. The Architect (Engineer) and/or Project Manager and/or Owner shall review and evaluate submittals and return them within seven (7) working days after he receives them. If necessary, the Contractor shall make any corrections required and resubmit with all due haste in the same number as initially. Review of submittals by the Architect (Engineer) and/or Project Manager shall not relieve the Contractor from complying with the requirements of the Contract Documents.

Any materials or equipment installed without approval shall be at the Contractor's own risk, and he may be required to remove any such materials or equipment and install the specified items at his own cost, including repairs to adjacent work.

28. PAYMENTS:

GENERAL CONDITIONS

Payments Do Not Imply Acceptance of Work: The granting of any progress payment or payments by the Board or the receipt thereof by the Contractor, shall not constitute acceptance of the work or of any portion thereof, and shall in no way lessen the liability of the Contractor to replace unsatisfactory work or material, whether or not the unsatisfactory character of such work or material was apparent or detected at the time such payment was made.

Retention of Sums Charged Against Contractor: It is mutually understood and agreed that when under any provision of this Contract the Board shall charge any sums of money against the Contractor, the amount of such charge shall be deducted and retained by the Board from the amount of the next succeeding progress estimate, or from any other monies due or that may become due the Contractor on account of the Contract. If on completion or termination of the Contract such monies due the Contractor are found insufficient to cover the Board's charges against him, the Board shall have the right to recover the balance from the Contractor or his sureties. In no case shall the Contractor or his Subcontractors or suppliers deduct or retain from any amount to be credited to the Board, except as defined in the Article on "MODIFICATIONS ON CONTRACT".

Payment to Subcontractors and Suppliers: The Contractor shall pay each Subcontractor and supplier promptly on receipt of each progress payment from the Board for the materials, labor and equipment delivered to the site or incorporated in the work by each Subcontractor during the period for which the progress payment is made, less any retention as provided above. In the event of a loss by a Subcontractor or supplier for which insurance monies are paid, the Contractor shall pay Subcontractor or supplier a just share thereof.

Release: The Contractor and each assignee under an assignment in effect at the time of final payment shall, if required by the Board, execute and deliver at the time of final payment and as a condition precedent to final payment, a release in form and substance satisfactory to and containing such exemptions as may be found appropriate by the Board, discharging the Board, its officers, agents and employees of and from liabilities, obligations and claims arising under this Contract.

If changes ordered in design, workmanship or materials are of such a nature as to increase or decrease the cost of any part of the work, the price fixed in the Contract shall be increased or decreased by such amount as the Contractor and the Board may agree upon as the reasonable and proper allowance for the increase or decrease in the cost of the work. Such amount will include all costs claimed by Contractor, including any costs claimed pursuant to the Section of the General Conditions (Delays and Time Extensions). No order for any alteration, modification or extra which shall increase or decrease the cost of the work shall be valid unless the resulting increase or decrease in price shall have been agreed upon in writing and the order signed by the Contractor, Architect (Engineer) and Owner.

Whenever the work or any part thereof is in a condition suitable for use, and the best interest of the Board requires such use, the Board may take possession of, connect to, open for public use, or use the work or a part thereof. When so used, maintenance and repairs due to ordinary wear and tear or vandalism will be made at Board's expense. The use by the Board

GENERAL CONDITIONS

of the work or part thereof as contemplated in this section shall in no case be construed as constituting acceptance of the work or any part thereof. Contractor shall continue to maintain all insurance on the project.

33. CONTRACTOR'S GUARANTEE:

By offering a proposal, it is mutually understood and agreed between the Owner and Contractor that the bidder (Contractor):

36. USE OF ROADWAYS AND WALKWAYS:

The Contractor shall not unnecessarily interfere with use of any roadway, walkway or other facility for vehicular or pedestrian traffic, by any party entitled to use it. Wherever such interference becomes necessary for the proper and convenient performance of the work and no satisfactory detour route exists, the Contractor shall, before beginning the interference, provide a satisfactory detour, temporary bridge, or other proper facility for traffic to pass around or over the interference and shall maintain it in satisfactory condition as long as the interference continues, all without extra payment unless otherwise expressly stipulated in the special provisions of the Specifications.

The Architect (Engineer) and/or Project Manager will promptly deliver the punch list to the Contractor and it will include a period of time by which the Contractor shall complete all items listed thereon. Final payment of retention will be made on completion of all items on the punch list, verified by a final inspection, and when all other Contract requirements have been satisfied.

B1. CERTIFICATION REGARDING COMMERCIAL NONDISCRIMINATION

The undersigned bidder hereby certifies and agrees that the following information is correct: In preparing its bid on this project, the bidder has considered all proposals submitted from qualified, potential subcontractors and suppliers, and has not engaged in "discrimination" as defined in §19-103 of the State Finance and Procurement Article of the Annotated Code of Maryland. "Discrimination" means any disadvantage, difference, distinction, or preference in the solicitation, selection, hiring, or commercial treatment of a vendor, subcontractor, or commercial customer on the basis of race, color, religion, ancestry, or national origin, sex, age, marital status, sexual orientation, or on the basis of disability or any otherwise unlawful use of characteristics regarding the vendor's, supplier's, or commercial customer's employees or owners. "Discrimination" also includes retaliating against any person or other entity for reporting any incident of "discrimination". Without limiting any other provision of the solicitation on this

project, it is understood that, if the certification is false, such false certification constitutes grounds for the Board of Education of Wicomico County (WBCOE) to reject the bid submitted by the bidder on this project, and terminate any contract awarded based on the bid. As part of its bid or proposal, the bidder herewith submits a list of all instances within the past 4 years where there has been a final adjudicated determination in a legal or administrative proceeding in the State of Maryland that the bidder discriminated against subcontractors, vendors, suppliers, or commercial customers, and a description of the status or resolution of that determination, including any remedial action taken. - (3) Fail to use the certified minority business enterprise in the performance of the contract; or
- (4) Pay the certified minority business enterprise solely for the use of its name in the bid or proposal.

Without limiting any other provision of the solicitation on this project, it is understood that if the certification is false, such false certification constitutes grounds for the WCBOE to reject the bid submitted by the bidder on this project, and terminate any contract awarded based on the bid.
